## Global Market Access (GMA) Application

Korea (Required)	4.	Are products planned for export considered "processed foods" as defined by Korean Food Code (i.e. transforming raw commodity so that the original form cannot be recognized)?	<ul> <li>Yes, I plan to export processed food as defined by Korean Food Code.</li> <li>No, all of the products I plan to export are raw or unprocessed.</li></ul>
Korea (Required)	5.	Does final processing (as defined in the Korean Food Code) occur in the U.S.?	<ul> <li>Yes, I plan to export products processed in the US.</li> <li>No, I plan to export products processed outside the US. Prohibited for export to Korea.</li> <li>No, all of the products I plan to export are raw or unprocessed. Prohibited for export to Korea.</li> <li>Some products I plan to export are processed outside the US. Describe:</li> </ul>
EU, UK, Switzerland, Japan, Taiwan (Required)	6.	Does final processing or packaging occur in the US?	<ul> <li>Yes, I plan to export products processed or packaged in the US.</li> <li>No, I plan to export products processed or packaged outside the US. Prohibited.</li> <li>Some products I plan to export are processed or packaged outside the US. Describe:</li> </ul>

### E. NOP Exports (Operations in the US/Mexico): Equivalency Exclusions

		<u> </u>	
Market	Product		Details
Canada	1.	Pet food, personal care products, and natural health products.	These products are not covered by the equivalency but may be sold as NOP certified in Canada. Reference to COR is prohibited.
EU, UK, and Switzerland	2.	Wine.	If you produce or export wine for the EU, UK or Switzerland, you will also need to complete the <b>GMA Wine Approval Application</b> in addition to this application.
EU and UK	3.	Aquatic animals (fish, shellfish) and personal care products.	Aquatic animals are excluded both for export to EU/UK and export out of EU/UK to the US.
Japan	4.	Alcohol, non-food processed products, and honey.	These products are not covered by the equivalency but may be sold as NOP certified in Japan. Reference to JAS is prohibited. Products containing honey (up to 5%) may be exported under the equivalency.
Taiwan	5.	Aquatic animals (fish, shellfish) and honey.	Aquatic animals are excluded both directions. Pure honey is excluded from the equivalency. Processed products containing honey may be exported under the equivalency.

### F. COR Exports (Canada Operations only): Critical Variances (Only answer for applicable markets)

Market	Management Practice or Product	Answer
US (Prohibited)	<ol> <li>Do you produce or use product produced from livestock treated with antibiotics?</li> </ol>	<ul> <li>No, livestock products were produced without antibiotics. Handlers must provide supplier self-attestation or certifier verification.</li> <li>Yes, livestock products were produced with antibiotics. Describe:</li> </ul>
EU, UK, and Switzerland (Required)	2. Are all unprocessed plant products, live animals or unprocessed animal products, and vegetative propagating material and seeds for cultivation grown in Canada?	<ul> <li>N/A, only processed products exported.</li> <li>Yes, all grown in Canada.</li> <li>No, grown outside of Canada. Describe:</li> </ul>

### G. COR Exports (Canada Operations only): Equivalency Exclusions

Market	Product	Details
Japan	1. Alcohol, seaweed, and honey.	These products are not covered by the equivalency but may be sold as COR certified in Japan. Reference to JAS is prohibited. Products containing honey (up to 5%) may be exported under the equivalency.
Taiwan	2. Honey.	May not be sold as organic in Taiwan.
