How to clear cache and cookies

1. Open Chrome.
2. On your browser toolbar, click the Chrome menu ≡.
3. Click **More tools** > **Clear browsing data**.
4. In the box that appears, click the checkboxes for **"Cookies and other site and plug-in data"** and **"Cached images and files."**
5. Use the menu at the top to select the amount of data that you want to delete. Choose **beginning of time** to delete everything.
6. Click **Clear browsing data**.

How to delete a saved password in Chrome

You can delete a specific saved password from Chrome or remove all saved password records at any time.

Computer

Delete a saved password for the site you're on

1. Go to the login page for the website you want to sign into.
2. At the end of the address bar, click the key icon 🔑.
3. After your username and password, click **X**.

Delete a saved password for another site

1. In the upper right corner of your window, click the Chrome menu ≡.
2. Click **Settings**.
3. At the bottom of the page, click **Show advanced settings**.
4. Under "Passwords and forms," click **Manage passwords**.
5. Under "Saved passwords," hover over the site whose password you'd like to remove.
6. Click the **X** that appears on the right.
7. Repeat steps 5 and 6 above for any other accounts you want to remove from the list.
8. In the bottom right corner of the screen, click **Done**.

Internet Explorer

View your browsing history and delete specific sites

By viewing your browsing history, you can choose to delete specific sites, or return to a webpage that you've already visited.

1. In Internet Explorer for the desktop, tap or click the Favorites button ☆.
2. Tap or click the History tab, and choose how you want to view your history by selecting a filter from the drop down menu:
   - View By Date shows your last three weeks of history in chronological order.
   - View By Site shows a list of sites you visited in the last three weeks, but not the dates of your visits.
   - View By Most Visited shows your most visited sites in the last three weeks.
   - View By Order Visited Today shows only sites you visited today.

To delete specific sites, press and hold (or right-click) a site from any of these lists, and then tap or click Delete. Or, return to a page by tapping or clicking any site in the list.

Delete your browsing history

Regularly deleting your browsing history helps protect your privacy, especially if you're using a shared or public PC

To delete your browsing history in the desktop

1. In Internet Explorer for the desktop, click the Tools button ⚙, point to Safety, and then click Delete browsing history.
2. Select the types of data or files you want to remove from your PC, and then tap or click Delete.

Note

- If you want Internet Explorer to delete your browsing history every time you close it, select the Delete browsing history on exit check box before you click Delete.

What gets deleted when you delete your browsing history

Types of info	What gets deleted
Browsing history	The list of sites you've visited.
Cached images and temporary Internet files	Copies of pages, images, and other media content stored on your PC. The browser uses these copies to load content faster the next time you visit those sites.
Cookies	Info that sites store on your PC to remember your preferences, such as sign-in info or your location.

| Download history	The list of files you've downloaded from the web. This only deletes the list, not the actual files that you've downloaded.
Saved form data	Info that you've entered into forms, such as your email or a shipping address.
Saved passwords	Passwords that you've saved for sites.
Tracking Protection, ActiveX Filtering, and Do Not Track data	Websites you've excluded from ActiveX Filtering, and data that the browser uses to detect tracking activity.
Favorites	The list of sites that you've saved as favorites. Don't delete favorites if you only want to remove individual sites—this will delete all of your saved sites.

Firefox

How to clear saved passwords

1. Go to Tools ≡. | Options | Security Panel

Safari 9 (El Capitan): Clear your browsing history

Choose History > Clear History, click the pop-up menu, then choose how far back you want your browsing history cleared.

When you clear your history, Safari removes data it saves as a result of your browsing, including:

- History of webpages you visited
- The back and forward list for open webpages
- Top Sites that aren't marked as permanent
- Frequently visited site list
- Recent searches
- Icons for open webpages
- Snapshots saved for open webpages
- List of items you downloaded (downloaded files aren't removed)
- Websites added for Quick Website Search
- Websites that asked to use your location
- Websites that asked to send you notifications

To remove an individual or multiple site passwords:

1. Open the Safari menu.
2. Select Preferences.
3. Switch to the Autofill tab.
4. Click the Edit button for Usernames and Passwords.
5. Delete the entry that corresponds with the site you want to remove.
